My heart is broken to hear about Mr Jack Carters passing. I have so many great memories of you both. When I come to visit my parents I always enjoyed my conversations with Jack. He gave me awesome advice. I remember after my dads passing I would talk to you and Jack for the second parent advice. He was like a second father to me. He would always say I think your father would or would not tell you this, then he would go on with the advice. He was such a warm and caring person, and he told great jokes. I will miss talking to him. But I know that mom and dad were waiting for him at the pearly gates and dad with a drink in hand asking are you ready for a honker.

My deepest sympathy to you and you are in my thoughts. Heaven has gained another wonderful angel to look down upon us. RIP Jack until I see you again.

*God Bless
