“ *Karen, you and your brother were very fortunate to have enjoyed her company for so many years-until she was 91! She lived independently for the most part down the road, sharing a meal and time with you during each week. You did a lot for her with taking her shopping, to her doctors and to other places she needed to go. I remember seeing her in Karen's office one day and how proud she was of Karen and what she was doing!*
