“ *I would like the family to know how much we will miss Jamie. We were class mates together in Brunswick. I remember how sweet she was to everyone in school. Everyone knew Jamie "Lynette" as she was known in school. I remember meeting her again on the internet about 2002. She and Mary Francis (Boone) Ransom (another classmate) would talk on instant message at night. I did not know she was living about an hour away. Mary, myself and my wife Shirley went to see her one day and she fixed a great meal. We had such a great time remembering being school together. I would like to tell Jessica how much she talked about you and loved you. You were the daughter she always wanted. Jessica you will always be in my prayers and heart. I know you will miss her greatly.*
