“ *I am sorry to hear that Mr Mayhugh passed away. He taught me physics and drivers education at Hewlett High School. His teaching skill was a major inspiration for my career in engineering. In the days before computers were widespread he taught his students important lessons for successful problem solving. I will not forget him saying "check your units"*

I drivers ed I have memories of being in the car with him and other students at 7AM. One morning I was driving and realized too late that I need to press the brake at a stop sign. The car suddenly stopped from not action of mine and Mr Mayhugh said, "I did it that time!"

Deepest condolences to the family and friends of My Mayhugh.
