“ *Sandie was an incredible lady to work with and spend time with. I worked with Sandie and Carol on the Model Banking project (Alltel) at NationsBank/Bank of America. In those days, on that project, there were not a lot of "voices of sanity", but Sandie was certainly one of them. Her calm nature and "get it done" attitude was a shining example to all of us. She made working on a high-intensity project less stressful for her co-workers. Her smile is what I will remember most. Carol, my condolences to you and Dennis and the rest of your family. I know that your loss is great, and my prayers will be with you all.*

“ *I met Sandie in 1985 in Pompono Beach, FL as she became an employee of Systematic's Inc. We set-up a Data Center to process 7 of our client banks. She fit right in with the other transferred in SI employees from day one and was a major asset in daily dealings with the banks. We all worked hard with some overtime hours but we found time for after work "Happy Hours" and Sandie put us onto the "Banana Boat" that was next to her apartment. She was a main stay there and she would introduce us to the management and told them to take care of us. She was a "FUN Lady" who we always had Great Times with whether it be work or play. “ I never met Sandie, because I live in Northern California, but we worked on many bank projects over the years. I think she was an absolutely incredible and invaluable teammate. She was so knowledgeable, reasonable, and rational, that she brought a breath of fresh air and sanity to any project she was on. I loved working and talking with her and will greatly miss her.

“ Carol, so sorry to hear about your sister, Sandie. I remember when your family moved to South Carolina from Indiana. You attended East End Elementary School with me, and Sandie was about the age of my brother, Jim (Jimmy). Spent several "slumber parties" at your house while in school, eating doughnuts and drinking milk for breakfast the next morning. I was actually hoping to catch up with Sandie at the joint Easley High class reunion (1966/1967) last year to ask about you and what you were doing. My husband graduated in 1967, but I never realized that Sandie was at the reunion until after the fact. I am so sorry I did not get to make the connection with her to hear all about your family, but we send our sincere condolences to you and your family at this time. -
