“ *My Uncle Wade had an irresistible smile, was very talented and self-taught with different musical instruments. One of my childhood memories is him & Betty playing dual on the piano. He always enjoyed being outside, being creative and cultivating not just flowers, trees, shrubs, and grass, but building water rock walls to display his creations. His Family will have memories simply by walking around his yard. Thankfully he spoke with each family member and expressed his desires for them before he departed. My heart knows where his spirit is and that makes me smile!*
